

NAME OF PROJECT

Don't Leave Hygiene on Seen!

LOCATION

Romania, Ilfov County

KEY ISSUE

Hygiene concerns in public schools

RELEVANT SUSTAINABLE DEVELOPMENT GOAL/S

PROBLEMS

Our main concern is the lack of hygiene in state funded schools. Even though Romania is a developing country, we experience third world problems such as lack of soap, toilet paper and other essential cleaning products.

OBJECTIVES

Our objective is to contribute to a safer, cleaner learning environment for students in public schools. We strive to implement this project on a local level at first, with the vision of implementing it at a national level later on, as we know this situation is common in most part of the country.

SOLUTION

We endeavor to provide the basic necessities: antimicrobial soap, toilet paper and... for 5 schools in Ilfov County for the school year 2019-2020.

The total number of school days on a basic school schedule averages 180 days, spread over 36 weeks throughout the year. It is our intention to make sure the schools selected in the initial phase are permanently stocked throughout the school year.

STAKEHOLDERS

- The public schools we plan to target;
- The National Education Ministry;
- The Ilfov County Inspectorate;
- The pupils, teachers and staff of those schools;
- The personal hygiene manufacturers that will presumably sponsor us

RESULTS
